

General Notes:

1. All dimensions are in inches unless otherwise specified.
2. Adjustment: A minimum of one adjustment ring shall be used on all structures in the curb lines. A maximum of three adjustment rings totaling 8" in height may be used. No more than two (2) of those rings may be precast concrete. The top ring in paved areas with crown adjustments shall be rubber.
3. Catch basin frames and grates in paved areas shall be a Neenah R-2504 with Type D grates, or approved equal. Beehive type grates shall be used in grassed areas and shall be a Neenah R-4340-B or approved equal. Closed lids shall be Neenah R-1713 or approved equal stamped with the words "STORM" and "CARPENTERSVILLE".
4. When adjusting rings are required on structures, provide ADCO WT-64 butyl sealant (or approved equal) between the adjusting rings and the structure.
5. Butyl rubber joint sealant by Ez-Stik (or approved equal) shall be applied on barrel section joints.
6. Structure shall be placed on a minimum 6" CA-6 granular bed.

Catch Basin Type C
